To the extent we process deidentified personal information, we will make no attempt to reidentify such data.

Collection and Disclosure of Personal Information

The personal information we collect is described above in <u>Information we collect</u>. The personal information we disclose for business or commercial purposes is described above in <u>How we</u> <u>disclose information</u>. The length of time for which we retain personal information is described above in <u>How long we keep your data</u>. Our purposes for processing data are described above in <u>Purposes of processing</u>.

Information "Sharing" and "Selling"

We "share" certain personal information with third party ad networks for purposes of behavioral advertising, including: Commercial and Financial Information, Inferences, Internet Activity,

Online Identifiers, and Personal Identifiers. This allows us to show you ads that are more relevant to you.

We use third party data analytics providers and this may be considered a "sale" of information under the CCPA.

You may opt-out of these data practices here. (https://privacy.azazie.com/opt-out)

We do not knowingly sell or share (for cross-context behavioral advertising) the personal information of consumers under 16 years of age.

CCPA Rights

Your CCPA rights are described below. Make a Privacy Request by clicking here

(https://privacy.azazie.com/privacy-request) or the link at the top of this page or by emailing us

at consumerdata@azazie.com.

Right to Know and Access

You have the right to request to know and access the following about the personal information we have collected about you in the past 12 months:

- the categories and specific pieces of personal information we have collected about you
- the categories of sources from which we collect personal information about you
- the business or commercial purposes for which we collect, sell, or share personal information

- the categories of third parties with whom we disclose the information
- the categories of personal information about you that we have sold, shared, or disclosed for a business purpose, and the categories of third parties to whom we have sold, shared, or disclosed that information for a business purpose

The information we would provide to you in response to a Request to Know Categories is contained in this Privacy Notice. To receive a copy of the specific personal information we have about you, submit a Request to Know or Access via the link above. If you make a Request to Know more than twice in a 12-month period, or we determine the request is manifestly unfounded or excessive, we may require you to pay a small fee for this service.

Right to Delete

You have the right to request that we delete any personal information about you that you have provided to us. Subject to certain limitations, we will delete from our records your requested personal information and direct our service providers to do the same.

Right to Non-Discrimination

If you exercise your CCPA consumer rights:

- · We will not deny goods or services to you
- We will not charge you different prices or rates for goods or services, including through the use of discounts or other benefits or penalties
- We will not provide a different level or quality of goods or services to you
- We will not suggest that you may receive a different price or rate for goods or services or a different level or quality of goods or services
- We will not retaliate against you, as an employee, applicant for employment, or independent contractor

We may still offer you certain financial incentives permitted by the CCPA such as discounts, rewards, premium features, or loyalty accounts that can result in different prices, rates, or quality levels.

Right to Opt-Out

You have the right to opt-out of any selling and sharing of your personal information.

You may exercise your right to opt-out here. (https://privacy.azazie.com/opt-out)

Right to Correct

You have the right to correct inaccuracies in your personal data, taking into account the nature of the data and our purposes for processing it.

Request Verification

Before we can respond to a Request to Know or Request to Delete, we will need to verify that you are the consumer who is the subject of the CCPA request. Verification is important for preventing fraudulent requests and identity theft. Requests to Opt-Out do not require verification.

Typically, identity verification will require you to confirm certain information about yourself based on information we have already collected. For example, we will ask you to verify that you

have access to the email address we have on file for you. If we cannot verify your identity based on our records, we cannot fulfill your CCPA request. If you submit a request not through our webform, we will ask you to provide the same information requested in the webform.

For a request that seeks specific personal information, we ask that you sign a declaration stating that you are the consumer whose personal information is the subject of the request, as required by the CCPA.

In some cases, we may have no reasonable method by which we can verify a consumer's identity. For example:

- If a consumer submits a request but we have not collected any personal information about that consumer, we cannot verify the request.
- If the only data we have collected about a consumer is gathered through website cookies (i.e. the consumer visited our website but had no other interaction with us), we are unable

to reasonably associate a requester with any data collected; therefore, we cannot verify the request.

Authorized Agent

A California resident's authorized agent may submit a rights request under the CCPA by emailing us at consumerdata@azazie.com. Requests submitted by an authorized agent will still require verification of the consumer who is the subject of the request in accordance with the process described above. We will also ask for proof that the consumer who is the subject of the request authorized an agent to submit a privacy request on their behalf by either verifying their own identity with us directly or directly confirming with us that they provided the authorized agent permission to submit the request. An authorized agent that has power of attorney pursuant to California Probate Code section 4121 to 4130 may also submit proof of statutory power of attorney, which does not require separate consumer verification.
